- Small Business Management ......................................................... 181-182
- Teaching Assistant ........................................................................ 183-184
- Travel & Tourism ........................................................................... 185-186
The information in this study is based upon the responses of 1,320 graduates (47% response rate) of the Class of 2013, and data from the National Student Clearinghouse.

**GRADUATES**

2,792 students graduated as the class of 2013

- 1,908 (68%) had been in transfer programs
- 686 (25%) had been in career programs
- 198 (7%) had been in certificate programs

**TRANSFER PROGRAM GRADUATES**

Of the 1,908 (A.S./A.A.) graduates:

- 952 (50%) are continuing their education full-time
- 172 (9%) are employed full-time
- 148 (8%) are continuing their education or are employed part-time
- 16 (1%) are currently available for employment
- 620 (32%) are not seeking employment and have not continued their education

**CAREER PROGRAM GRADUATES**

Of the 686 (A.A.S.) graduates:

- 224 (33%) are employed full-time, 203 (30%) in their major field
- 84 (12%) are continuing their education full-time
- 55 (8%) are employed or are continuing their education part-time
- 21 (3%) are currently available for employment
- 302 (44%) are not seeking employment and have not continued their education

**CAREER PROGRAM GRADUATES - CERTIFICATES**

Of the 198 (certificate) graduates:

- 57 (29%) are employed full-time, 51 (26%) in their major field
- 14 (7%) are continuing their education full-time
- 12 (6%) are employed or are continuing their education part-time
- 4 (2%) are currently available for employment
- 111 (56%) are not seeking employment and have not continued their education
**HIGHLIGHTS**

**COLLEGE TRANSFER:**
- **1,082 (39%)** of all graduates are continuing their education full-time.
- **1,454 (52%)** of graduates transferred either full- or part-time to 189 different colleges & universities.
- **1,029 (37%)** of transferring graduates are enrolled in local colleges and universities including:
  - SUNY College at Brockport ................................................................. 390
  - Rochester Institute of Technology .......................................................... 165
  - St. John Fisher College ........................................................................... 118
  - SUNY College at Geneseo ....................................................................... 61
  - Nazareth College .................................................................................... 52
  - Roberts Wesleyan College ..................................................................... 41
  - SUNY Empire State College .................................................................... 33
  - University of Rochester .......................................................................... 30
  - All SUNY/CUNY colleges combined account for **847 (30%)** of transferring graduates.
- **1,830 (66%)** of graduates are either studying or working full- or part-time.

**EMPLOYMENT:**
- Graduates were hired by **567 employers**.
- Local employers continue to hire the vast majority of our graduates. Of the career and certificate program graduates who indicated current full-time employment, **90%** are employed in Monroe County or an adjacent county.
- Of the career and certificate program graduates who are employed full-time, **90%** are in jobs related to their major at Monroe Community College.
- **548 (42%)** of all graduates who completed MCC’s “Graduate Follow Up Survey” are employed in full-time positions.
- **983 (74%)** of all graduates who completed MCC’s “Graduate Follow Up Survey” are employed either full- or part-time.

The types of companies & organizations that most frequently employ our graduates are:
- Hospitals, health care facilities, & nursing homes ...................................... 222
- Hotels, restaurants, & food service organizations, including grocery stores .......... 190
- HVAC, manufacturing, construction, & automotive companies ......................... 124
- Telecommunications, business, & computer services, including law offices & banks .... 118
- Retail stores, excluding grocery stores .......................................................... 94
- Social service agencies, child care providers, & non-profit organizations ............... 70
- City, county, state, & federal government offices, including the military ................. 66
- Educational institutions (schools, colleges, & universities) ................................... 55

The local companies & organizations that most frequently hire our graduates are:
- Rochester Regional Health System ............................................................. 70
- University of Rochester, including UR Medicine & Highland Hospital ............... 48
- Wegmans .................................................................................................... 43
- Monroe County, including MCC ................................................................ 35
- City of Rochester, including police & fire departments & school district ............. 23
- Highland Hospital ..................................................................................... 10

The tables shown on the following pages are organized hierarchically to avoid presenting duplicate data. That is, graduates who are counted in one category (e.g., "Number Continuing Their Education Full-Time") are not counted in the subsequent categories (e.g., "Number Employed Full-Time"). The pages facing the tables, however, show all employers and transfer colleges that respondents reported on the Graduate Follow-Up Survey.

## Addictions Counseling

This program is designed to prepare students for a future in addiction counseling after completing the baccalaureate in Social Work or another relevant field.

This program is designed around the 12 Core Functions designated as essential by the New York State Office of Alcohol & Substance Abuse Services and required for completion of the Credentialed Alcohol & Substance Abuse Counselor (CASAC). These core functions are addressed in six 3-credit alcohol & chemical dependency counseling classes.

Cinema & Screen Studies

The Cinema and Screen Studies Program offers a strong Liberal Arts perspective on motion picture and television history, culture, theory, and production. Students are introduced to cinema as a medium of mass communication which combines two art forms, photography and theater, to communicate powerful stories with vivid pictures and strong emotion. Students investigate cinema and television through critical studies and create images of their own through scriptwriting and introductory production opportunities. Finally, students gain an appreciation for cinema and television from a commercial standpoint since these media exist not only in the marketplace of ideas but also as end products of an industrial enterprise.

Upon completion of this degree, students are able to continue their studies at baccalaureate film or mass media degree programs where they apply what they have learned at MCC to more advanced studies in this or related fields.

Communication & Media Arts

The Associate in Science degree in Communication & Media Arts emphasizes writing, speaking, and the presentation of visual information, while providing an excellent foundation in liberal arts and sciences. The communications courses focus on topics such as audience analysis, copyright laws, freedom and ethics of the press and speech, and the impact of communications technology on education, business, and the formation of public opinion. Through laboratory and studio experiences, students create publications, develop visual and broadcast information formats, and become familiar with the equipment used by communications specialists.

Computer Information Systems

Information systems professionals play a key and vital role in the management and growth of an organization. Through a combination of computer management and social skills, these professionals become the creative problem-solvers who define and implement the information needs of an organization and develop related organizational structures. The program develops in the students a basic understanding of computer skills and strategies to be applied to the discipline of computer information systems. The foundations are then more fully developed in a baccalaureate program in computer information systems, management information systems, telecommunications, database administration, or other computer systems curricula.

### Computer Science

Computer Science includes both the study of underlying theories of computing as well as the specific applications of information manipulation and problem-solving. The Computer Science program provides the first two years of instruction for students who plan to transfer to baccalaureate programs at four-year colleges. The program offers a balance of computer science, mathematics, and science courses with sufficient flexibility to accommodate a range of student career interests and the various emphases and requirements of upper division programs.

Criminal Justice

This program provides the first two years of instruction for students who plan to transfer to a bachelor degree program at a four-year college or university. It is appropriate for students interested in advanced education to pursue a career in probation, parole, public safety, or criminal justice planning. It is also an appropriate avenue to public administration and public service degree programs.

Diversity & Community Studies

This is a transfer degree program for individuals seeking careers that require knowledge and skills to function in diverse settings. It is suited to those who desire employment in governmental or non-governmental organizations, in multinational corporations, and in agencies of civil society. It is an interdisciplinary program that employs the analytical frameworks of the social sciences and other disciplines of the liberal arts. The program emphasizes the application of analytical and experiential skills to real world situations.

Students have the option to choose one of five possible tracks in this degree program: African American Studies, Cultural Studies, Gender and Sexuality Studies, Global Studies, or Urban Studies.

Engineering Science

The program in Engineering Science is designed for students planning a career in the engineering professions who intend to transfer to a baccalaureate program in engineering. It provides essentially the same educational experience during the first two years as that of four-year institutions and allows transfer with full junior status. In addition, the program is broadly based so as to fully prepare graduates, upon transfer, to specialize in any of the various fields of engineering such as mechanical, electrical, aerospace, chemical and biomedical.

Human Services

The Human Services A.S. degree program prepares students to transfer and earn a baccalaureate degree in social work, human services, or a related area, by providing both professional and general education courses that parallel the first two years in a four-year institution. Students explore the helping professions in the classroom and gain practical experience through internships at area agencies.

Note: Prior to 2009, MCC offered an A.S. degree called “Liberal Arts & Sciences/Human Services Certificate.”

Individual Studies

This program is designed to provide a flexible alternative for students who have defined their academic and career goals and wish to optimize transfer. Each student enrolled in Individual Studies works with an advisor to identify and follow an articulated program, taking courses which will allow them to transfer into their chosen baccalaureate program as seamlessly as possible. Students admitted to this program must adhere to articulated transfer programs under CAPP or through a formal articulation agreement with a four-year institution.

Information Technology

This program is designed to give students a solid foundation in information technology to foster success in obtaining a four-year degree. Students gain a background in networking, programming, database design, and website design. This program also provides the solid math background required to develop problem-solving skills.

International Business

This program is designed to prepare students to transfer to a four-year college or university that offers majors in business, international business, marketing, economics, finance, or related areas. The curriculum provides students who are considering a career in international business, commerce, or diplomacy with a solid background in language, culture, international politics, and business. The program provides students with a better understanding of global, political, social, economic, and trade relationships by blending elements of liberal arts and business curricula.

**Liberal Arts & Sciences - General Studies**

This program is designed for students seeking a large measure of flexibility in selecting courses consistent with their individual needs and interests while simultaneously acquiring a general education foundation in the liberal arts and sciences. Students uncertain about their long-term educational and career plans often find that the General Studies program provides a valuable opportunity to explore and test their interests. Other students with special educational goals relating to either immediate employment upon graduation or further study toward a baccalaureate degree often consider this program to meet their needs.

## Liberal Arts & Sciences - Science

The program in the Liberal Arts & Sciences - Science provides the first two years of preparation for students who plan to transfer and earn a baccalaureate degree in biology, chemistry, environmental science, geosciences, physics, or another career area such as medicine or pharmacy for which good science preparation is needed. The various concentrations within this program identify course sequences that facilitate transfer to upper division colleges and universities.

The Public Relations program is designed to prepare students for transfer to a four-year college or university that offers programs in public relations, communications, and mass media. The curriculum provides a foundation in liberal arts and a background in communication theory, media writing, and public relations. The program will enable students to better understand the role of public relations today in business, government, education and non-profit organizations.

---

There are two options for the Theatre Arts program:

**Performance Option:** This program of study is designed for students who plan to transfer and earn the baccalaureate degree with a major in theatrical performance or technical theatre. The program is balanced between courses providing general theatre knowledge and those designed to develop a particular theatrical skill. A variety of theatrical shows at the college provides students with opportunities to participate in the performance and production of a theatrical show for a public audience.

**Technical Theatre:** This program of study is designed for students who plan to transfer and earn the baccalaureate degree with a major in theatrical performance or technical theatre. The program is balanced between courses providing general theatre knowledge and those designed to develop a particular theatrical skill. A variety of theatrical shows at the college provides students with opportunities to participate in the performance and production of a theatrical show for a public audience.

**Liberal Arts & Sciences - Adolescence Education**

This program is designed to support and encourage progress toward a baccalaureate degree in NYS teacher certification for students interested in pursuing teaching as a career. The Liberal Arts & Sciences Adolescence Education degree is specifically for students interested in teaching grades 7 through 12.

This course of study provides students with the opportunity to experience the basic fundamentals of teaching in the classroom, while studying various integral aspects of the profession. It also provides students with a balance of coursework between completing Education classes, General Education requirements, and pursuing courses within their selected academic major.

MCC students also have the opportunity to apply for membership into Pi Lambda Theta, the International Honor Society and Professional Association in Education. MCC is the first community college in the nation invited to join this honor society.

- Accounting
- Accounting
- Accounting (2)
- Accounting
## Accounting: General

This degree provides students with a strong foundation in management accounting principles, including cost accounting and taxation. Graduates are usually responsible for keeping records of daily financial transactions, making journal entries, and creating balance sheets and reports. Advanced education combined with experience enables individuals to move into more responsible positions such as accountants and auditors, and to specialize in areas such as taxation, investments, costs, budgeting, or internal auditing.
### 2013 EMPLOYERS

- (Undecided)
- Monroe Community College
- Monroe Community College
- Pennsylvania College of Technology

### PROGRAMS

- Substance Abuse & Alcohol Treatment
- HVAC
- Liberal Arts
- Automotive Business Management
### Apprentice Training - Automotive

The Apprentice Training - Automotive program combines on-the-job training with classroom instruction to prepare students for careers as automotive technicians. As the automotive industry advances with sophisticated technology and responds to the needs and demands of consumerism and legislation, employment opportunities are increasing for technicians, that is, technicians who are more highly skilled than mechanics of the past. There are also opportunities in management for those who are interested.

### 2013 Colleges Programs
The Computer Systems Technology A.A.S. degree program is tailored to meet the growing demand for individuals with the diverse knowledge to maintain, service, evaluate and utilize increasingly sophisticated microprocessor and minicomputer systems. In addition to a strong electronics curriculum, students take specialized courses in computer technology. Students study the analysis and design of electronic circuits, computer logic, computer architecture, and the fundamentals of computer programming. Specific training is provided in: electronic instrumentation, troubleshooting and debugging techniques, computer peripherals, computer maintenance and fault diagnosis, and high-level and assembly language programming.
# Construction Technology

## 2013 EMPLOYERS
- (Not Disclosed)
- New York State Department of Transportation
- Rochester Spunk, LLC
- UPS

## POSITIONS
- Cook; Estimator/Project Manager
- Transportation Construction Inspector (Co-Op Student)
- General Manager
- Supervisor

## 2013 COLLEGES
- Monroe Community College
- Rochester Institute of Technology

## PROGRAMS
- Construction Technology
- Civil Engineering (2); Civil Engineering Technology (2)
Construction Technology

All students entering the Construction Technology Department share a common curriculum in their first year. In their second year, they may choose to focus their coursework on highways and structures, environmental, or construction technology. Students are given sufficient familiarity with all specialities and the opportunity to specialize in a given area where they may seek immediate employment and possibly certification.

Those who choose Construction Technology are part of a team responsible for the coordination and implementation of a construction project. Some of the duties include cost estimating, project management, and project scheduling. This specialization combines a knowledge of core courses such as structural design, concrete design, and surveying, and expands on them to include their applications in the construction field.

- Public Justice-Public Administration
- Social Sciences Interdisciplinary
Criminal Justice

This program is designed to meet the community’s need for highly trained law enforcement professionals who have the knowledge, skills, and attitude to respect the rights of both the crime victim and the law violator; to safeguard life and property to maintain peace; and to protect the constitutional rights of all people. The Criminal Justice field offers men and women a variety of challenging career opportunities in public and private service at the national, state, and local levels. Twenty- and twenty-five year retirement programs in the field further multiply opportunities for the job entrant. Most law enforcement agencies are Civil Service, with written examinations used as a basis for employment. Further, they have stipulated physical and moral standards. For the college educated person, more opportunities are open for employment.

Fire Protection Technology

The Fire Protection Technology program is designed to explore the scientific techniques that may be applied to the practice of fire protection, fire prevention, and fire extinguishment. The objective of the curriculum is to prepare students to meet the challenges of our modern technological society. This challenge may appear in the form of hazardous chemicals and processes, modern urban problems affecting our inner cities, or an array of fire hazards. Employment opportunities may be found in both industry and commerce as fire protection specialists, industrial inspectors for both public and private agencies, or other diversified occupations, such as safety specialists or emergency medical technicians.

Hospitality Management

The curriculum emphasizes a broad base of industry skills such as technical knowledge, communication and customer relations skills, and creative problem-solving. Cooperative Education provides work-based experience to expand students' learning opportunities.

The program prepares students for a wide variety of career opportunities within the hospitality industry. Such career choices include, but are not limited to: culinary arts, food service administration, supermarket management, health care and nutrition, hotel technology, golf management, travel and tourism, and physical fitness technology.

Graduates of the Hospitality Management program often begin their careers as manager trainees or supervisors. With experience, they qualify for such positions as Restaurant Manager, Caterer, Sous Chef, Front Office Manager, Convention Sales Representative, Meeting Planner, Tour Operator, Tourism Consultant, Gold Facilities Manager, and Manager of Physical Fitness Facility, Health Club or Spa. Transfer and 2+2 programs are available in all areas.

Note: This program is made up of the formerly individual A.A.S. degree programs of Hotel Technology, Food Services Administration, and Travel & Tourism.

2013 COLLEGES PROGRAMS
## Massage Therapy

This program is designed to provide students with the education and experience to be licensed massage therapists in New York State. The curriculum includes extensive study in both western and oriental massage, biological science, health education, and business. Once licensed, graduates can establish their own private practice as a licensed massage therapist (LMT) or assume a staff position as an LMT in a health facility, resort, hotel, or health club.

*Note: Students are no longer being admitted into this program.*

## 2013 Programs
- Mechanical Engineering Technology; Non-Matriculated
- Organizational Management
- Electrical Mechanical Engineering Technology;
  Manufacturing Engineering; Mechanical Engineering Technology (4)
- Mechanical Engineering; Mechanical Engineering Technology
### Mechanical Technology

The Mechanical Technology program prepares students for challenging careers in mechanical design. The mechanical designer requires knowledge in many areas including mechanical drafting, computer-aided drafting and design, machine shop, robotics, and machine components. This program provides a thorough understanding of these concepts as they apply to today's high technology. In particular, the drafting and design courses emphasize the national standards for drafting and geometric dimensioning and tolerancing.

The Nursing program prepares qualified men and women for entry into professional nursing practice. Upon completion of the program, graduates are eligible for admission to the NCLEX-RN (National Council Licensure Examination for Registered Nurses). Graduates find themselves well prepared for and successful on these examinations: year after year, 96% to 99% of them pass the licensing examination the first time they take it. Graduates of the program are employed in a variety of health care settings in the Rochester area and in other parts of the country. Many graduates have completed or are working toward higher degrees in nursing.
# Office Technology

## 2013 EMPLOYERS
- Epilepsy-Pralid, Inc
- Friendly Home
- Hamberger & Weiss
- O’Brien & Gere
- Richards & West Jewelry
- Rochester Childfirst Network

## 2013 POSITIONS
- Administrative Assistant
- Dining Services Associate
- Administrative Assistant
- Administrative Assistant
- CACSP Field Representative

## 2013 COLLEGES
- SUNY Erie Community College

## 2013 PROGRAMS
- Paralegal Studies
The widespread use of automated equipment is changing the role of the secretary in the modern office. Today, secretaries are frequently asked to combine word processing skills with traditional tasks such as typing, transcribing, handling correspondence, scheduling appointments, and maintaining files. In some settings, secretaries may perform such specialized work as drafting reports, researching and writing documents, bookkeeping, operating high tech equipment, supervising other employees or managing other minor administrative tasks. MCC’s Office Technology programs are designed to provide students with the skills needed for employment in today’s high technology office environments and in specific settings. Specialized courses combined with a foundation in communications give students the edge in the job market after graduation.

*Note: The Legal Office Administrative Assistant program part of the Office Technology is being deactivated.*

Optical Systems Technology

The Optical Systems Technology curriculum offers a unique, comprehensive program which prepares graduates for work in new, rapidly expanding technologies combining optics with electronics, mechanics, and photographic processes. Optical system technicians work with scientists and engineers in research, development, design, production, quality control, test and evaluation of optical components and systems as well as sales and service. Optical Technology is very important to such activities as the space program, astronomy, laser applications, fiber optics, and the search for solar and other new sources of energy.

## Precision Machining

### 2013 Employers
- Calvary Automation
- Dependable Tool & Die Co., Inc.
- East Side Machine, Inc.
- Frederico Construction & Demolition
- Optimax Systems
- Rochester Gear, Inc.
- TREK, Inc.
- Val Tech Holdings, Inc.

### Positions
- Junior Engineer
- Machinist
- C&C Machinist
- Foreman/Operator
- Machinist
- Machinist
- Apprentice Moldmaker

### 2013 Colleges
- Monroe Community College
- Rochester Institute of Technology

### Programs
- Mechanical Engineering Technology (2)
- Mechanical Engineering
Precision Machining

This program is designed to prepare students for employment in the precision metal working industry. It provides the academic course work, hands-on skills, and advanced manufacturing processes required by business. Graduates have a working knowledge of advanced manufacturing techniques that make them valuable to an employer. They are able to enter or advance in such fields as mold making, machine building, tool making, die making, CNC machinist, or other manufacturing areas. This program is offered in partnership with the Rochester Chapter of the National Tooling and Machining Association.
Public Administration

2013 EMPLOYERS POSITIONS

2013 COLLEGES PROGRAMS
### Public Administration

The Public Administration A.A.S. degree program is designed to prepare individuals to work in the public sector. The program stresses the skills, knowledge, and attitudes needed to provide professional service required in public administration, preparing students for careers in state, county, and municipal government or not-for-profit organizations.

Radiologic Technologists and Diagnostic Radiographers use controlled radiant energy (x-rays) to produce anatomical images on photographic x-ray film. The resulting radiograph is interpreted by a radiologist (specialized physician) and is used to detect injury or disease. The objectives of this program are to prepare entry-level diagnostic radiographers who can produce high quality radiographs, who can interact with patients in a caring manner, and who can accept the responsibility of the profession and effectively carry out the tasks.
## Visual Communications Technology: Graphic Design

### 2013 EMPLOYERS
- Brick City Catering
- City of Rochester - Public Library
- Exalt Printing Solutions
- Heritage Christian Services
- Jewish Community Center
- PetSmart
- QCI Direct
- Quick Fill Gas Station
- Ski Company, The
- Target
- Wegmans

### 2013 COLLEGES
- Maryville University
- Monroe Community College
- Nazareth College
- Rochester Institute of Technology
- SUNY Brockport
- SUNY Buffalo State College

### POSITIONS
- Catering Staff Member

Addictions Counseling - Certificate

### 2013 EMPLOYERS
- Rochester Regional Health System
- U.S. Army Reserves
- U.S. Department of Veterans Affairs
- (Not Disclosed)
- Combat Medic
- Crisis Counselor

### 2013 COLLEGES
- Master’s International School of Divinity
- Urban Ministry
Addictions Counseling - Certificate

This certificate program is intended mainly for students who already have a degree in an associated field, and is designed to qualify graduates to apply for the CASAC-T, the Credentialed Alcohol and Substance Abuse Counselor-in-Training designation. This is the first step toward obtaining the CASAC itself, which in New York State is the appropriate qualification for a career in the substance abuse counseling field. Included in this certificate is course work covering all core functions of an addictions counselor as specified by the New York Office of Alcohol & Substance Abuse Services (OASAS). Also included is a 300 hour internship in a Rochester area addiction-related agency.

### Automotive Technology - Certificate

This certificate program is designed to meet the needs of students who want to enter the workforce as soon as possible. This program combines on-the-job training with classroom instruction to prepare students for careers as automotive technicians. As the automotive industry advances with sophisticated technology and responds to the needs and demands of consumerism and legislation, employment opportunities are increasing for technicians.

Court Reporting - Certificate

2013 EMPLOYERS POSITIONS

2013 COLLEGES PROGRAMS
Court Reporting - Certificate

This certificate program is designed to provide students with the education requirements necessary for application for the New York State licensing examination for Certified Shorthand Reporter. Candidates for this examination must complete three years full-time experience as a verbatim reporter, which may be accomplished by working as a freelance hearing reporter. Prospective court reporters must also pass a civil service examination. The computer-aided transcription skills developed in the program prepare students for employment as verbatim freelance hearing reporters, computer-aided transcriptionists, or computer-aided transcription editors.

NOTE: Students are no longer being admitted into this program.

## Culinary Arts - Certificate

This program is for students who are primarily interested in a Food Service concentration without the broad liberal arts background. Graduates of the program have established a basis for a career in the food service industry, and are qualified for at least entry-level positions in any of the production or service areas of the food industry including assistant cook, assistant salad or sandwich person, assistant food preparation person, and in some cases, assistant night manager.

*Note: This certificate program was formerly part of the Food Management/Production certificate program.*

*Includes those with undecided plans for employment or further education.

**Not included if fewer than five respondents reported salaries for full-time employment in their field.
Medical Transcription - Certificate

2013 EMPLOYERS POSITIONS

2013 COLLEGES PROGRAMS
Medical Transcription - Certificate

This one year certificate program prepares students to function as professional medical transcriptionists. Students receive a basic understanding of the language of medicine, advanced skills in word processing and technology, and technical skills in transcription equipment and processes. Upon completion of the program, students are prepared for careers in the medical transcription field including working in physicians offices, hospitality and outpatient clinics, insurance companies, private dictation services, or as independent contractors.

Paralegal Studies - Certificate

The Paralegal Studies Certificate program prepares students for entry-level employment as professional paralegals. Professional level paralegals work under the supervision of a lawyer researching the law, investigating facts, preparing drafts of legal documents, and working with clients. They are employed in almost all areas where law-related work is performed, i.e., private law firms, government agencies, insurance companies and corporations.
Paramedic - Certificate

### Paramedic - Certificate

This program prepares an individual for admission to the New York State Health Department examinations for certification as a paramedic. The paramedic certification course sequence includes classroom, hands-on skill development, hospital clinical experience, and field internships. This program includes only the courses required for admission to the New York State Department of Health Paramedic certification exams. It is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org).

Precision Tooling - Certificate

This certificate program is designed to prepare graduates for employment in the precision metal-working industry in Monroe County and the Finger Lakes Region of New York State. Included in this certificate is the course work and hands-on skills development necessary to enter apprenticeship programs in mold making, machine building, tool and die making, or employment in production machining. Students enrolling in this program can also prepare for majors in the mechanical, quality, or manufacturing programs offered at Monroe Community College.

All TAM courses are approved as technical related instruction by the Bureau of Apprenticeship Training and used by the area’s local manufacturers as a means of educating current employees.

_Students interested in this program may also be interested in the Apprentice Training: Machine Trades program._

### PROGRAMS
# Teaching Assistant - Certificate

This program prepares students with the required coursework for a successful career as a Teaching Assistant/Paraprofessional. It provides an opportunity for teaching assistants and individuals interested in K-12 education to begin their higher education in a gradual and supportive manner. The program fulfills the college credit hour requirements for New York State level II, III and pre-professional Teaching Assistant Certificate. The certificate will also transfer into an Associate of Arts Teacher Education Degree leading to a baccalaureate degree and NYS Teacher Certification for students interested in pursuing teaching as a career.

This course of study provides students with the opportunity to experience the basic fundamentals of teaching in the classroom while studying various integral aspects of the profession. The course of study also provides students with a balance of course work between completing education classes, general education coursework, and elective coursework.

Graduates of this program receive a solid foundation in both the liberal arts and sciences as well as the educational functions of teaching assistants and may find employment in preschool, elementary and secondary schools.
