Follow-Up Study of 2016 Graduates

The information in this study is based upon 2,386 graduates of the Class of 2016.

We have outcome data on 1,737 (73%) of those graduates.

It came from the Graduate Follow-Up Survey, the National Student Clearinghouse, AlumniFinder, various MCC departments.

❖ GRADUATES

2,386 STUDENTS GRADUATED AS THE CLASS OF 2016

- 1,529 (64%) HAD BEEN IN TRANSFER PROGRAMS

- 637 (27%) HAD BEEN IN CAREER PROGRAMS

- 220 (9%) HAD BEEN IN CERTIFICATE PROGRAMS

❖ TRANSFER PROGRAM GRADUATES

OF THE 1,529 (A.S./A.A.) GRADUATES:

- 671 (44%) ARE CONTINUING THEIR EDUCATION FULL-TIME

- 127 (8%) ARE EMPLOYED FULL-TIME

- 313 (20%) ARE CONTINUING THEIR EDUCATION OR ARE EMPLOYED PART-TIME

- 5 (0%) ARE CURRENTLY AVAILABLE FOR EMPLOYMENT

- 413 (27%) HAVE NOT CONTINUED THEIR EDUCATION AND HAVE AN UNKNOWN EMPLOYMENT STATUS

❖ CAREER PROGRAM GRADUATES

OF THE 637 (A.A.S.) GRADUATES:

- 236 (37%) ARE EMPLOYED FULL-TIME, 215 (34%) IN THEIR MAJOR FIELD

- 65 (10%) ARE CONTINUING THEIR EDUCATION FULL-TIME

- 132 (21%) ARE EMPLOYED OR ARE CONTINUING THEIR EDUCATION PART-TIME

- 8 (1%) ARE CURRENTLY AVAILABLE FOR EMPLOYMENT

- 196 (31%) HAVE NOT CONTINUED THEIR EDUCATION AND HAVE AN UNKNOWN EMPLOYMENT STATUS

❖ CAREER PROGRAM GRADUATES - CERTIFICATES

OF THE 220 (CERTIFICATE) GRADUATES:

- 77 (35%) ARE EMPLOYED FULL-TIME, 71 (32%) IN THEIR MAJOR FIELD

- 12 (5%) ARE CONTINUING THEIR EDUCATION FULL-TIME

- 76 (35%) ARE EMPLOYED OR ARE CONTINUING THEIR EDUCATION PART-TIME

- 0 (0%) ARE CURRENTLY AVAILABLE FOR EMPLOYMENT

- 55 (25%) HAVE NOT CONTINUED THEIR EDUCATION AND HAVE AN UNKNOWN EMPLOYMENT STATUS

❖ COLLEGE TRANSFER:

- **770 (32%)** OF ALL GRADUATES ARE CONTINUING THEIR EDUCATION FULL-TIME
- **1,184 (50%)** OF GRADUATES TRANSFERRED EITHER FULL- OR PART-TIME TO 157 DIFFERENT COLLEGES & UNIVERSITIES
- **912 (77%)** OF TRANSFERRING GRADUATES ARE ENROLLED IN LOCAL COLLEGES AND UNIVERSITIES INCLUDING:

SUNY COLLEGE AT BROCKPORT	301
ROCHESTER INSTITUTE OF TECHNOLOGY	128
ST. JOHN FISHER COLLEGE	76
ROBERTS WESLEYAN COLLEGE	38
NAZARETH COLLEGE	36
SUNY COLLEGE AT GENESEO	32
UNIVERSITY OF ROCHESTER	21
SUNY EMPIRE STATE COLLEGE	17

- ALL SUNY/CUNY COLLEGES COMBINED ACCOUNT FOR **815 (69%)** OF TRANSFERRING GRADUATES
- **1,709 (72%)** OF GRADUATES ARE EMPLOYED AND/OR CONTINUING THEIR EDUCATION

❖ EMPLOYMENT:

- GRADUATES WERE HIRED BY **704** EMPLOYERS.
- LOCAL EMPLOYERS CONTINUE TO HIRE THE VAST MAJORITY OF OUR GRADUATES. OF THE CAREER AND CERTIFICATE PROGRAM GRADUATES WHO INDICATED CURRENT FULL-TIME EMPLOYMENT, **90%** ARE EMPLOYED IN MONROE COUNTY OR AN ADJACENT COUNTY.
- OF THE CAREER AND CERTIFICATE PROGRAM GRADUATES WHO ARE EMPLOYED FULL-TIME, **91%** ARE IN JOBS RELATED TO THEIR MAJOR AT MONROE COMMUNITY COLLEGE .
- **503 (39%)** OF THE GRADUATES WE HAVE OUTCOME DATA ON ARE EMPLOYED FULL-TIME, AND **621 (49%)** ARE EMPLOYED PART-TIME.

• THE TYPES OF COMPANIES & ORGANIZATIONS THAT MOST FREQUENTLY EMPLOY OUR GRADUATES ARE:

HOSPITALS, HEALTH CARE FACILITIES, DENTAL OFFICES, & NURSING HOMES	256
HOTELS, RESTAURANTS, GROCERY STORES, SALONS, & GYMS	226
HVAC, MANUFACTURING, CONSTRUCTION, & AUTOMOTIVE COMPANIES	173
TELECOMMUNICATIONS, BUSINESS, & COMPUTER SERVICES, INCLUDING LAW OFFICES & BANKS	138
RETAIL STORES, EXCLUDING GROCERY STORES	83
EDUCATIONAL INSTITUTIONS (SCHOOLS, COLLEGES, & UNIVERSITIES)	62

The tables shown on the following pages are organized hierarchically to avoid presenting duplicate data. That is, graduates who are counted in one category (e.g., "Number Continuing Their Education Full-Time") are not counted in the subsequent categories (e.g., "Number Employed Full-Time"). The pages facing the tables, however, show all employers and transfer colleges.

TRANSFER CURRICULUM - A.S.

Comparison Summary: Transfer Curriculum - A.S.

	YEAR OF GRADUATION			
	2016	2015	2014	2013
NUMBER RECEIVING DEGREES	1,480	1,669	1,693	1,810
NUMBER FOR WHICH WE HAVE OUTCOME DATA	1,079	1,167	697	819
RETURN RATE	73%	70%	41%	45%
NUMBER CONTINUING THEIR EDUCATION FULL-TIME	639	811	474	552
NUMBER EMPLOYED FULL-TIME	126	142	127	161
NUMBER CONTINUING THEIR EDUCATION / EMPLOYED PART-TIME	303	193	78	87
NUMBER AVAILABLE FOR EMPLOYMENT	5	15	11	14
NUMBER OTHER *	407	508	7	5

** Includes those with no further education and whose employment is unknown.
The information in the table is unduplicated. That is, graduates who are counted in one category (e.g., Number Continuing Their Education Full-Time) are not counted in other categories (e.g., Number Employed Full-Time).*

Addictions Counseling

This program is designed to prepare students for a future in addiction counseling after completing the baccalaureate in social work or another relevant field.

This program is designed around the 12 Core Functions designated as essential by the New York State Office of Alcohol and Substance Abuse Services and required for completion of the Credentialed Alcohol and Substance Abuse Counselor (CASAC). These core functions are addressed in six 3-credit alcohol and chemical dependency counseling classes.

Cinema & Screen Studies

The Cinema and Screen Studies Program offers a strong Liberal Arts perspective on motion picture and television history, culture, theory, and production. Students are introduced to cinema as a medium of mass communication which combines two art forms, photography and theater, to communicate powerful stories with vivid pictures and strong emotion. Students investigate cinema and television through critical studies and create images of their own through scriptwriting and introductory production opportunities. Finally, students gain an appreciation for cinema and television from a commercial standpoint since these media exist not only in the marketplace of ideas but also as end products of an industrial enterprise.

Upon completion of this degree, students are able to continue their studies at baccalaureate film or mass media degree programs where they apply what they have learned at MCC to more advanced studies in this or related fields.

Communication & Media Arts

The Associate in Science degree in Communication & Media Arts emphasizes writing, speaking, and the presentation of visual information, while providing an excellent foundation in liberal arts and sciences. The communications courses focus on topics such as audience analysis, copyright laws, freedom and ethics of the press and speech, and the impact of communications technology on education, business, and the formation of public opinion. Through laboratory and studio experiences, students create publications, develop visual and broadcast information formats, and become familiar with the equipment used by communications specialists.

Computer Information Systems

Information systems professionals play a key and vital role in the management and growth of an organization. Through a combination of computer management and social skills, these professionals become the creative problem-solvers who define and implement the information needs of an organization and develop related organizational structures. The program develops in the students a basic understanding of computer skills and strategies to be applied to the discipline of computer information systems. The foundations are then more fully developed in a baccalaureate program in computer information systems, management information systems, telecommunications, database administration, or other computer systems curricula.

Computer Science

Computer Science includes both the study of underlying theories of computing as well as the specific applications of information manipulation and problem-solving. The Computer Science program provides the first two years of instruction for students who plan to transfer to baccalaureate programs at four-year colleges. The program offers a balance of computer science, mathematics, and science courses with sufficient flexibility to accommodate a range of student career interests and the various emphases and requirements of upper division programs.

Diversity & Community Studies

This is a transfer degree program for individuals seeking careers that require knowledge and skills to function in diverse settings. It is suited to those who desire employment in governmental or non-governmental organizations, in multinational corporations, and in agencies of civil society. It is an interdisciplinary program that employs the analytical frameworks of the social sciences and other disciplines of the liberal arts. The program emphasizes the application of analytical and experiential skills to real world situations.

Students have the option to choose one of five possible tracks in this degree program: African American Studies, Cultural Studies, Gender and Sexuality Studies, Global Studies, or Urban Studies

Engineering Science

The program in Engineering Science is designed for students planning a career in the engineering professions who intend to transfer to a baccalaureate program in engineering. It provides essentially the same educational experience during the first two years as that of four-year institutions and allows transfer with full junior status. In addition, the program is broadly based so as to fully prepare graduates, upon transfer, to specialize in any of the various fields of engineering such as mechanical, electrical, aerospace, chemical and biomedical.

Human Services

The Human Services A.S. degree program prepares students to transfer and earn a baccalaureate degree in social work, human services, or a related area, by providing both professional and general education courses that parallel the first two years in a four-year institution. Students explore the helping professions in the classroom and gain practical experience through internships at area agencies.

Individual Studies

This program is designed to provide a flexible alternative for students who have defined their academic and career goals and wish to optimize transfer. Each student enrolled in Individual Studies works with an advisor to identify and follow an articulated program, taking courses which will allow them to transfer into their chosen baccalaureate program as seamlessly as possible. Students admitted to this program must adhere to articulated transfer programs under CAPP or through a formal articulation agreement with a four-year institution.

International Business

This program is designed to prepare students to transfer to a four-year college or university that offers majors in business, international business, marketing, economics, finance, or related areas. The curriculum provides students who are considering a career in international business, commerce, or diplomacy with a solid background in language, culture, international politics, and business. The program provides students with a better understanding of global, political, social, economic, and trade relationships by blending elements of liberal arts and business curricula.

Liberal Arts & Sciences - Chemistry

In MCC's chemistry associate degree program, students are challenged by a dynamic combination of classroom and laboratory work. They develop the critical thinking, problem-solving, and communication skills necessary for academic and career success. Graduates are also halfway to a bachelor's degree in their choice of chemistry-related majors.

Liberal Arts & Sciences - General Studies

This program is designed for students seeking a large measure of flexibility in selecting courses consistent with their individual needs and interests while simultaneously acquiring a general education foundation in the liberal arts and sciences. Students uncertain about their long-term educational and career plans often find that the General Studies program provides a valuable opportunity to explore and test their interests. Other students with special educational goals relating to either immediate employment upon graduation or further study toward a baccalaureate degree often consider this program to meet their needs.

The information in the table is unduplicated. That is, graduates who are counted in one category (e.g., Number Continuing Their Education Full-Time) are not counted in other categories (e.g., Number Employed Full-Time).

Sports Management

The sports management program covers the first two years of a bachelor's degree in sport management, sport science or a related field. Students take specialized sport management courses from seasoned faculty who have years of experience in the sport management industry. They also get workplace experience in sport management via internships with Rochester's top pro sport organizations, including the Red Wings and Rhinos. The sport management associate degree helps students build toward a career in fields such as: sport business and marketing, athletic administration, major and minor league sport operations, facility and event management, sport promotion, equipment development and retail.

Credits from the program transfer directly to top-notch bachelor's degree programs. Students satisfy many of the requirements for a sport management bachelor degree, taking courses in sport-related subjects such as: fitness, sport science, health and wellness, and outdoor education.

In addition, the program introduces students to business fundamentals such as accounting, marketing, and human resources. When students complete the associate degree and prepare to transfer into a four-year program, they're already about halfway to a bachelor's degree.

The information in the table is unduplicated. That is, graduates who are counted in one category (e.g., Number Continuing Their Education Full-Time") are not counted in other categories (e.g., Number Employed Full-Time").

Sustainability

Sustainability is grounded on the conviction that we should develop ways to meet our present needs without compromising the ability of future generations to meet their own needs. The sustainability studies A.S. program provides students with an understanding of how social, economic, institutional, and environmental aspects of sustainability relate to both the human and the non-human environment. They study the interrelated trends of population growth, resource consumption, and technological progress. They also analyze how individual actions affect social, economic, and environmental systems, and design a solution to a sustainability-related problem.

Theatre Arts

There are two options for the Theatre Arts program:

Performance Option: This program of study is designed for students who plan to transfer and earn the baccalaureate degree with a major in theatrical performance or technical theatre. The program is balanced between courses providing general theatre knowledge and those designed to develop a particular theatrical skill. A variety of theatrical shows at the college provides students with opportunities to participate in the performance and production of a theatrical show for a public audience.

Technical Theatre: This program of study is designed for students who plan to transfer and earn the baccalaureate degree with a major in theatrical performance or technical theatre. The program is balanced between courses providing general theatre knowledge and those designed to develop a particular theatrical skill. A variety of theatrical shows at the college provides students with opportunities to participate in the performance and production of a theatrical show for a public audience.

Liberal Arts & Sciences - Adolescence Education

This program is designed to support and encourage progress toward a baccalaureate degree in NYS teacher certification for students interested in pursuing teaching as a career. The Liberal Arts & Sciences Adolescence Education degree is specifically for students interested in teaching grades 7 through 12.

This course of study provides students with the opportunity to experience the basic fundamentals of teaching in the classroom, while studying various integral aspects of the profession. It also provides students with a balance of coursework between completing Education classes, General Education requirements, and pursuing courses within their selected academic major.

MCC students also have the opportunity to apply for membership into Pi Lambda Theta, the International Honor Society and Professional Association in Education. MCC is the first community college in the nation invited to join this honor society.

Accounting: General

This degree provides students with a strong foundation in management accounting principles, including cost accounting and taxation. Graduates are usually responsible for keeping records of daily financial transactions, making journal entries, and creating balance sheets and reports. Advanced education combined with experience enables individuals to move into more responsible positions such as accountants and auditors, and to specialize in areas such as taxation, investments, costs, budgeting, or internal auditing.

Apprentice Training - Automotive

The Apprentice Training - Automotive program combines on-the-job training with classroom instruction to prepare students for careers as automotive technicians. As the automotive industry advances with sophisticated technology and responds to the needs and demands of consumerism and legislation, employment opportunities are increasing for technicians, that is, technicians who are more highly skilled than mechanics of the past. There are also opportunities in management for those who are interested.

Clinical Laboratory Technician / Medical Laboratory Technician

Monroe Community College offers the only clinical laboratory technician associate degree program in the Rochester area. This two-year degree program, housed in the biology department, offers outstanding career training in lab tech skills and technologies. Students get a practical, hands-on education in medical laboratory procedures, while gaining valuable field experience in various clinical lab settings. The program enables students to: develop clinical lab tech skills, pass professional licensing exams, add work experience and references to your resume, and compete for medical lab technician and clinical lab technician jobs

The degree provides students with a practical education in medical laboratory procedures. They have coursework in math, data recording, laboratory analysis, medical computer applications, and written/oral communication. In addition, the degree covers medical subjects such as: hematology, microbiology, immunology, serology, clinical chemistry, and urinalysis.

While earning their associate degree, students train to be a clinical laboratory technician in many types of laboratory settings including hospitals, reference testing labs, and nonprofit organizations such as the Red Cross.

Computer Systems Technology

The Computer Systems Technology A.A.S. degree program is tailored to meet the growing demand for individuals with the diverse knowledge to maintain, service, evaluate and utilize increasingly sophisticated microprocessor and minicomputer systems. In addition to a strong electronics curriculum, students take specialized courses in computer technology. Students study the analysis and design of electronic circuits, computer logic, computer architecture, and the fundamentals of computer programming. Specific training is provided in: electronic instrumentation, troubleshooting and debugging techniques, computer peripherals, computer maintenance and fault diagnosis, and high-level and assembly language programming.

Construction Technology

All students entering the Construction Technology Department share a common curriculum in their first year. In their second year, they may choose to focus their coursework on highways and structures, environmental, or construction technology. Students are given sufficient familiarity with all specialities and the opportunity to specialize in a given area where they may seek immediate employment and possibly certification.

Those who choose Construction Technology are part of a team responsible for the coordination and implementation of a construction project. Some of the duties include cost estimating, project management, and project scheduling. This specialization combines a knowledge of core courses such as structural design, concrete design, and surveying, and expands on them to include their applications in the construction field.

Criminal Justice

This program is designed to meet the community's need for highly trained law enforcement professionals who have the knowledge, skills, and attitude to respect the rights of both the crime victim and the law violator; to safeguard life and property to maintain peace; and to protect the constitutional rights of all people. The Criminal Justice field offers men and women a variety of challenging career opportunities in public and private service at the national, state, and local levels. Twenty- and twenty-five year retirement programs in the field further multiply opportunities for the job entrant. Most law enforcement agencies are Civil Service, with written examinations used as a basis for employment. Further, they have stipulated physical and moral standards. For the college educated person, more opportunities are open for employment.

Dental Hygiene

The Dental Hygiene program prepares students for careers in preventive dentistry through clinical services and dental health counseling. Working under the supervision of a dentist, the hygienist assists the dentist and patient in providing dental health information and performing preventative dental treatments. Graduates of the program often find employment in private dental offices, clinics, and community health agencies.

Electrical Engineering Technology

The electronics curriculum is designed to provide technical depth and breadth, and general education in support of the dynamic field of electronics. Students in this program spend over 400 classroom hours learning how to analyze and design a wide variety of electronic circuits and systems. They also log over 500 hours of laboratory time in which they become proficient in the use of industrial-grade equipment that includes: VOM, DVM, dual-trace storage oscilloscope, current probe, logic probe, logic analyzer (7D01), spectrum analyzer, and signature analyzer.

Entrepreneurial & Applied Business Studies

This program develops the skills and knowledge needed by students who plan to start their own business ventures, work in a family business, expand their present business, or seek employment in a small business after receiving their Associates degree. The core courses within this degree provide students with a solid base of business, personal, analytical, and problem-solving skills. Additionally, this program provides basic knowledge in accounting, law, marketing, management, and customer service.

Fire Protection Technology

The Fire Protection Technology program is designed to explore the scientific techniques that may be applied to the practice of fire protection, fire prevention, and fire extinguishment. The objective of the curriculum is to prepare students to meet the challenges of our modern technological society. This challenge may appear in the form of hazardous chemicals and processes, modern urban problems affecting our inner cities, or an array of fire hazards. Employment opportunities may be found in both industry and commerce as fire protection specialists, industrial inspectors for both public and private agencies, or other diversified occupations, such as safety specialists or emergency medical technicians.

The information in the table is unduplicated. That is, graduates who are counted in one category (e.g., Number Continuing Their Education Full-Time") are not counted in other categories (e.g., Number Employed Full-Time").

Hospitality Management

The curriculum emphasizes a broad base of industry skills such as technical knowledge, communication and customer relations skills, and creative problem-solving. Cooperative Education provides work-based experience to expand students' learning opportunities.

The program prepares students for a wide variety of career opportunities within the hospitality industry. Such career choices include, but are not limited to: culinary arts, food service administration, supermarket management, health care and nutrition, hotel technology, golf management, travel and tourism, and physical fitness technology.

Graduates of the Hospitality Management program often begin their careers as manager trainees or supervisors. With experience, they qualify for such positions as Restaurant Manager, Caterer, Sous Chef, Front Office Manager, Convention Sales Representative, Meeting Planner, Tour Operator, Tourism Consultant, Gold Facilities Manager, and Manager of Physical Fitness Facility, Health Club or Spa. Transfer and 2+2 programs are available in all areas.

Note: This program is made up of the formerly individual A.A.S. degree programs of Hotel Technology, Food Services Administration, and Travel & Tourism.

Human Services

This program prepares students for employment in agencies, schools, and centers that value paraprofessionals with a combination of college course work and human services field experience. Human Services graduates assist professionals in all kinds of positions where people help people. These include community and social welfare agencies, mental health and social agencies, community organizations, habilitation and rehabilitation agencies, day care centers and nursery schools, and geriatric services.

Mechanical Technology

The Mechanical Technology program prepares students for challenging careers in mechanical design. The mechanical designer requires knowledge in many areas including mechanical drafting, computer-aided drafting and design, machine shop, robotics, and machine components. This program provides a thorough understanding of these concepts as they apply to today's high technology. In particular, the drafting and design courses emphasize the national standards for drafting and geometric dimensioning and tolerancing.

Nursing

The Nursing program prepares qualified men and women for entry into professional nursing practice. Upon completion of the program, graduates are eligible for admission to the NCLEX-RN (National Council Licensure Examination for Registered Nurses). Graduates find themselves well prepared for and successful on these examinations: year after year, 96% to 99% of them pass the licensing examination the first time they take it. Graduates of the program are employed in a variety of health care settings in the Rochester area and in other parts of the country. Many graduates have completed or are working toward higher degrees in nursing.

Office Technology

The widespread use of automated equipment is changing the role of the secretary in the modern office. Today, secretaries are frequently asked to combine word processing skills with traditional tasks such as typing, transcribing, handling correspondence, scheduling appointments, and maintaining files. In some settings, secretaries may perform such specialized work as drafting reports, researching and writing documents, bookkeeping, operating high tech equipment, supervising other employees or managing other minor administrative tasks. MCC's Office Technology programs are designed to provide students with the skills needed for employment in today's high technology office environments and in specific settings. Specialized courses combined with a foundation in communications give students the edge in the job market after graduation.

Optical Systems Technology

The Optical Systems Technology curriculum offers a unique, comprehensive program which prepares graduates for work in new, rapidly expanding technologies combining optics with electronics, mechanics, and photographic processes. Optical system technicians work with scientists and engineers in research, development, design, production, quality control, test and evaluation of optical components and systems as well as sales and service. Optical Technology is very important to such activities as the space program, astronomy, laser applications, fiber optics, and the search for solar and other new sources of energy.

Precision Machining

This program is designed to prepare students for employment in the precision metal working industry. It provides the academic course work, hands-on skills, and advanced manufacturing processes required by business. Graduates have a working knowledge of advanced manufacturing techniques that make them valuable to an employer. They are able to enter or advance in such fields as mold making, machine building, tool making, die making, CNC machinist, or other manufacturing areas. This program is offered in partnership with the Rochester Chapter of the National Tooling and Machining Association.

Public Safety Communications

The Public Safety Communication program is designed to provide educational and professional development to those currently employed in the emergency communications field. The program focuses on communications skills development in a public safety communications center. Topics such as operations, record keeping, equipment, and dealing with diverse populations are just a sampling of areas covered in this program. Students also concentrate on specific roles, techniques, and responsibilities that each specific discipline entails (EMS, Fire, & Police).

This program has two tracks, Law Enforcement Dispatcher and Fire/EMS Dispatcher. Students that successfully complete the program are certified by the Association of Public Safety Communications Officers Institute (APSCO). Enrollment is limited to current public safety communications personnel sponsored by their respective agency that have received Emergency Communications Department approval.

Radiologic Technology

Radiologic Technologists and Diagnostic Radiographers use controlled radiant energy (x-rays) to produce anatomical images on photographic x-ray film. The resulting radiograph is interpreted by a radiologist (specialized physician) and is used to detect injury or disease. The objectives of this program are to prepare entry-level diagnostic radiographers who can produce high quality radiographs, who can interact with patients in a caring manner, and who can accept the responsibility of the profession and effectively carry out the tasks.

Addictions Counseling - Certificate

This certificate program is intended mainly for students who already have a degree in an associated field, and is designed to qualify graduates to apply for the CASAC-T, the Credentialed Alcohol and Substance Abuse Counselor-in-Training designation. This is the first step toward obtaining the CASAC itself, which in New York State is the appropriate qualification for a career in the substance abuse counseling field. Included in this certificate is course work covering all core functions of an addictions counselor as specified by the New York Office of Alcohol & Substance Abuse Services (OASAS). Also included is a 300 hour internship in a Rochester area addiction-related agency.

Computer-Aided Design & Drafting - Certificate

Industrial designers use powerful desktop computers to generate three-view drawings and create 3D prototypes and models. They save their files on the cloud, then share them on their smartphones. Computer-aided design and drafting, or CADD, plays a vital role in a wide range of industries, including: architecture, automotive, civil engineering, interior design, landscaping, movie animation, and robotics.

The computer-aided design and drafting certificate prepares students for entry-level employment in the dynamic CADD field. They learn the fundamentals of: geometric creation, geometric data management, manufacturing process interfaces, rapid prototyping, design optimization, and design analysis.

All of our CADD courses meet national standards for drafting and geometric dimensioning and tolerancing (GDT).

Cybersecurity - Certificate

This program provides students with comprehensive knowledge and training in the implementation and management of the security measures required to protect computer resources from unauthorized access or attack. In particular, this program is designed to provide students with the technical expertise needed to protect enterprise information and computing assets connected to the Internet. Classroom work provides students with extensive hands-on experience, and training using state-of-the-art security tools and techniques. This certificate is designed to meet the needs of Information Technology practitioners, law enforcement personnel, and anyone else interested developing a solid foundation in Cybersecurity.

Although a basic understanding of computers is expected, this program is designed for students with no previous experience in Cybersecurity. Several of the courses in the certificate parallel the training developed by the SysAdmin, Audit, Network, and Security (SANS) Institute and can be used to help prepare students to sit for the Global Information Assurance Certification (GIAC) examinations.

Optical Systems Technology - Certificate

This program prepares students to work in optical activities, such as testing, quality control, and production. It provides a background in optics using the eye as a detector, but not incorporating the peripheral disciplines, such as electronics and photography, as offered in the A.A.S. curriculum in Optics.

This certificate program is designed for people working in the field or an allied field who wish to add optics to their sphere of competence. All courses shall be applicable to the A.A.S. degree should the student wish to continue his/her education in Optical Engineering Technology.

Paralegal Studies - Certificate

The Paralegal Studies Certificate program prepares students for entry-level employment as professional paralegals. Professional level paralegals work under the supervision of a lawyer researching the law, investigating facts, preparing drafts of legal documents, and working with clients. They are employed in almost all areas where law-related work is performed, i.e., private law firms, government agencies, insurance companies and corporations.

Solar Thermal Technology - Certificate

In the solar thermal technology certificate program, students develop practical, cutting-edge skills that will impress employers in the fast-growing solar energy industry. The program is designed for students who seek to enter the solar-energy industry as installers and service technicians, and for people already working in heating, ventilating, and air conditioning ("HVAC") who want to improve their job skills. Students can get solar thermal training at MCC as a stand-alone certificate or as part of our HVAC associate degree program.

Students get hands-on experience in our Solar Thermal Auxiliary Resource (STAR) Lab. Built by students for students, this 40-foot-high outdoor lab simulates an actual rooftop panel installation. They also get classroom instruction that covers the fundamentals, such as: solar heat collection and transfer, building codes, and principles of solar thermal systems

After earning the certificate, students are prepared to pass the North American Board of Certified Energy Practitioners (NABCEP) Solar Thermal Entry Level Certification Exam, which makes them even more marketable to employers.

Sustainability - Certificate

Sustainability is becoming a priority in a number of fields, including business, agriculture, law, natural science, and technology. This certificate will provide evidence that a given student has completed a coherent course of study in the emerging field of sustainability.

The sustainability certificate is designed to complement the college's associate degree programs by allowing a given student to earn credit toward his/her degree while at the same time pursuing what amounts to a minor field of study in sustainability. The certificate requires students to complete 16-20 credits of coursework relevant to the study of sustainability; students will complete at least one approved course in each of three core areas (natural science, social science, and humanities) and may choose the remaining six credits from the list of core courses or from a list of approved electives.

Teaching Assistant - Certificate

This program prepares students with the required coursework for a successful career as a Teaching Assistant/ Paraprofessional. It provides an opportunity for teaching assistants and individuals interested in K-12 education to begin their higher education in a gradual and supportive manner. The program fulfills the college credit hour requirements for New York State level II, III and pre-professional Teaching Assistant Certificate. The certificate will also transfer into an Associate of Arts Teacher Education Degree leading to a baccalaureate degree and NYS Teacher Certification for students interested in pursuing teaching as a career.

This course of study provides students with the opportunity to experience the basic fundamentals of teaching in the classroom while studying various integral aspects of the profession. The course of study also provides students with a balance of course work between completing education classes, general education coursework, and elective coursework.

Graduates of this program receive a solid foundation in both the liberal arts and sciences as well as the educational functions of teaching assistants and may find employment in preschool, elementary and secondary schools.
