Summer 2020

Information & Registration Guide

Monroe Community College

STATE UNIVERSITY OF NEW YORK

Inspiring every day.

Do something smart this summer!

Explore a subject. Earn credits that transfer anywhere. Add fresh skills to your resume. Or apply to over 100 programs!

MCC is here for you. For over 60 years, we've provided the certainty of a high-quality, affordable college education. This summer, we'll continue that promise through online and remote learning in a wide range of subjects

You don't have to apply for admission to take a course or two! Check out the offerings inside and follow the simple online or mail-in course registration instructions on page 3 of this booklet. Or apply to one of MCC's 100+ degree and certificate programs by visiting www.monroecc.edu/go/apply

While you're learning, you'll be earning SUNY credits. MCC is a member of the State University of New York (SUNY) system. So whether you take a course or apply to a program, your SUNY credits are respected and transferrable to colleges and universities across the state and across the country.

We're one of the best educational values in the country. Because MCC is both nationally ranked and a SUNY college, we're able to strike a balance of high-quality academics and low-cost tuition. **Only \$183 per credit hour for New York state residents.**

Need help deciding?

For help choosing the right course or program talk with an MCC Admissions Counselor today. Call us at 585.292.2200 or send an email to admissions@monroecc.edu.

Online or Remote? What's the difference?

MCC has over 20 years experience in online learning. You can study and complete assignments entirely on your own schedule. Remote learning is also flexible but includes online meet-up schedules that replace classroom instruction.

MCC Admissions

MCC Admissions offices and staff are here to assist you. Virtual appointments are available.

To set up an individual virtual appointment:

Email: admissions@monroecc.edu

Or Call: 585.292.2200

College hours: Monday–Friday, 8:45am–4:45pm

You do not need to apply to take a course this summer!

MCC will be offering classes this fall. Applications are being accepted now! Go to www.monroecc.edu/go/apply.

College credits *but no degree?*

You're not alone.

Lots of people stop and start their college degree.
But like running a marathon, it's not about how fast you go.
It's about getting to the finish line at a pace that works for you.

*MCC has what you need to finish that degree or certificate—and start
enjoying better job opportunities and earnings.*

- **Expert assistance applying for federal financial aid and MCC scholarships**
- **Academic advising and help choosing a program**
- **Free academic support services and workshops**

*Turn the page and
discover programs
that open doors in
today's job market.*

Find out about these programs,

Addictions Counseling

New York has a shortage of well-trained addictions counselors. MCC equips you with training that leads to professional certification. We offer two options: A two-year associate program that leads to a bachelor's degree, and a one-year certificate for human services professionals already working in the field.

Your professors have years of experience as addiction counselors. You'll learn practical skills like case management and intake screening, and participate in an internship.

Human Services

Opportunities for skilled human services professionals are growing. Over 350 entry-level jobs open annually in the Rochester area! In hospital systems, health associations, and hundreds of direct care organizations.

Ask us about two-year programs that lead to rewarding jobs right after graduation. Or transfer programs that lead seamlessly to a bachelor's degree. If you're already working in human services, certificates in addictions counseling or direct disability will give your skills a boost.

Auto Tech Apprenticeship

Earning while you learn makes our automotive apprenticeship program a win-win for students. Work at a dealership or auto service center while taking classes at MCC's Applied Technology Center. Specialize in GM, Toyota or Multi-Manufacturer auto technologies. It's challenging, but hard work pays off. Starting salaries averages \$35K. Experienced techs make from \$56-\$80K.

Optical Systems Technology

Optical systems technology credentials from MCC can open doors to fantastic employment opportunities with Fortune 500 companies and dozens of precision optics manufacturers in Rochester. Over 570 technician jobs are open annually, with 97% of Upstate NY optics openings going unfilled. Optical systems technology at MCC gives you a direct path to employment in this rapidly growing industry.

Heating, Ventilating, Air Conditioning

The demand for mechanics and installers keeps growing. MCC offers the high-quality training you need for a new job or advancement in your current one! Get valuable hands-on experience and an introduction to green technologies like solar energy. Ask about college credit for work experience. HVAC professionals can make from \$45K to \$68K annually.

Criminal Justice: Police A.A.S.

MCC offers training that lets you compete for the best jobs, including rewarding positions at every government level, at colleges and at private firms. Over 100 jobs open annually in our area, including patrol officer, state trooper, asset protection, campus safety and more. Depending on experience, salaries range from \$44K to \$70K. Don't want to work at a desk all day? This could be the career for you!

Paralegal

Already have a college degree but looking for a new direction? The paralegal studies certificate program at MCC is a great way to break into a growing field that offers interesting work and many professional opportunities. Job growth currently exceeds the average for all occupations at 12%. Professors with experience in law will help you build the skills that government and today's top legal firms are looking for!

Clinical Laboratory Technician

MCC offers the only clinical laboratory technician associate degree in the Rochester area. This two-year program provides outstanding career training in lab tech skills and technologies, plus valuable field training. You'll be ready for professional licensing exams and employment at hospitals, reference labs, and nonprofit organizations such as the American Red Cross. This field offers steady employment with job growth at 18% through 2024!
