

After watching at least one mathematician’s video, write a brief response to any three topics in the space to the right of the item. No math skills required! There are no wrong answers.

Name of the Mathematician _____

Reflection topic	Your response
Each mathematician shared special math memories that steered them in their career direction. Write a paragraph describing a special math memory you have.	
What did you find most interesting or intriguing from listening to the mathematician’s journey?	
What were you most surprised by?	
Each mathematician was excited to speak about his/her proudest accomplishment. Share your proudest accomplishment.	
One common theme from all of the mathematicians is that they received positive feedback about being good at math at a young age. Describe the positive feedback that you heard on a subject that you are good at.	
Were you motivated by the mathematician’s words of wisdom? If so, share their wisdom and how their words inspired you.	
Did the video you selected create an “image” of a mathematician? If so, describe your image.
